➤ Presentation

A steel grille with a Roots motif that draws on nature.

Our series 2000/Figurative tree grilles have been developed using an eco-conception approach and are made of steel ; they have been studied and designed optimally to minimise the use of raw materials and the energy required for manufacturing them.

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

➤ Description

The tree grille is made up of two half grilles in 6 mm thick painted galvanized steel placed on a perimeter frame in 6 mm thick painted galvanized steel. The profile of the frame is an angle iron.

Steel parts are zinc plated, then they undergo our powder blast process (after cleaning and shot blasting, they are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

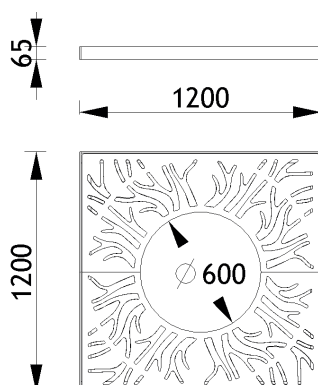

The 2 half grilles are assembled with screws and nuts.

Number of frame anchoring points: 12 (Ø 14mm holes).

Delivered unassembled.

Weight : 97 kg.
