

Centaure Evolution 3 places Seat

Ref. 10 0100 AC2E

Street Furniture
Classical Range

Sineu Graff : Intelligent Design
for the town of tomorrow

➤ Presentation

With its classical design, the Centaure Evolution seat is the flag ship of Sineu Graff. The strenght of the cast iron combined to the ergonomoy of the seat in exotic wood and to the galvanised steel armrests are the key of the success of the Centaure Evolution seat. This piece of comfortable street furniture will integrate easily into your public spaces.

➤ Description

The seating and backrest of the seat are made up of bosse variety wooden bars with a 45 x 58 mm section.

After the application of a flow coat, the wood is coated with solvent-free water-based emulsion stain.

The legs of the seat are in painted cast iron.

The armrests in painted zinc-plated steel are fixed to the wooden bars.

A 4 mm thick median painted zinc-plated steel reinforcement supports the seating and the backrest.

Fastening is by means of nuts and 3 M16 threaded spacers in zinc-plated steel, 1910 mm long.

Cast-iron parts are produced in a foundry located close to our factory in France and are treated using our powder blast process (after cleaning and shot blasting, the parts are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

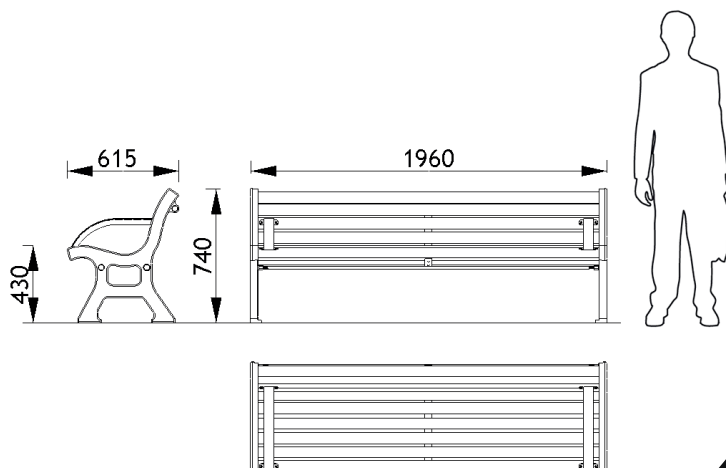

Steel parts are zinc plated, then they undergo our powder blast process (after cleaning and shot blasting, they are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

4 anchoring points.

Delivered assembled.

Weight : 92 kg.

➤ Dimensions

➤ Colours

Colours shown:

Wood : Natural shade

Leg and armrests : RAL 9017 Traffic black

Colours to select from RAL (satin) or AKZ NOBEL (sand) charts.
