

Product sheet Cobra Light

Product description

The Cobra Light is a modern bicycle parking system that is inspired to the wishes of contemporary bikers. Because of this the Cobra Light scores well on aspects as user-friendliness, safety and visual appeal.

Distinctive features

- Front fork support so there is no damage to the wheel
- Heart-to-heart distance of at least 37,5 cm so there is enough space between the bikes which makes the system easier to use
- High/low-difference so the steering wheels don't interfere
- Integrated locking system so the bike can be locked to the system
- Round shaped base-plate which prevents dirt to stay between the system and makes it low in maintenance

Models and measurements

Model	Number of bicycle places	Heart-to-heart distance	Width
Cobra Light 2 - single-sided	2	375 mm / 400 mm	750 mm / 800 mm
Cobra Light 4 - single-sided	4	375 mm / 400 mm	1500 mm / 1600 mm
