# nine

**Nine** [nain] new, adjective, English origin.

- 1 ▪ 9 or *nine*.
  - 2 ▪ For Thai people, 9 is the numeral of happiness.
  - 3 ▪ For Chinese people, 9 is the numeral of long life, resistance and stability.
  - 4 ▪ Globally, 9 is a very positive sign.
- (SYN. brand new, previously unseen, immaculate, original).

- In collaboration with the German landscape architect Michael Hennemann, Sineu Graff has designed a new generation bench. The body is made up of 9 slats, 2 slats going down to the ground to create the base. Combined to the seating, the base gives a slender and pure look to the item. The bench is fitted with sliding backrests in transparent thermoplastic, bringing originality and lightness to **Nine**. It also encourages people to chat, relax and create conviviality moments with the interactive backrests.

**Nine** also adapts to the constraints of the environment: it is mobile, it can be easily removed if the environment hosts a special event, a market, etc., needing empty space.

■ Length: 4500 mm

## CUSTOMISATION POSSIBILITIES

### ■ **Nine** offers large customisation possibilities:

Colours of the wooden slats, with or without backrests, number and position of backrests, single or in-line installation... **Nine** is a unique and original solution to give an elegant touch to your layout!
