

SPACE'ROC®

We live in a society where people can enjoy an area of personal comfort that can be shared with others while maintaining personal space. Provided with smartphones, tablets or laptops, people seek spaces sheltered from the rain or sun, while they relax and meet others outdoors.

STREET FURNITURE

XL SPACE'ROC®

Space'roc® meets this demand. Its original shape and its characteristic roof make this solution identifiable: **Space'roc becomes a real meeting place and enhances spaces. Space'roc® combines a sheltered and infinitely convertible space with an exterior facade with apparatus.** Relax, work, play, talk, exercise.... There are unlimited possibilities.

APPARATUS

To fight against inactivity and to promote relaxation outdoors, you can add four apparatus to the outside facade of the Space'roc®. So that four users can work out at the same time, at the same place. This equipment lets both occasional and dedicated athletes do their stretching or work on their muscle development.
