

## Self-sufficient bus stop - ready for use on site on delivery

**Photovoltaic plant**  
Completely self-sufficient power supply.

No underground cable is required.

**Bird friendly glass screen printing**  
High effectiveness (only 5.2 % approaches) confirmed in flight tunnel test.

**Reflectors**  
For even more safety on dark days.

**Individual installation**  
Suitable for any installation location, for bolting or paving over.

**Integrated lighting system**  
With intelligent light and motion sensor, stand-by lighting, lithium-ion battery and efficient LED technology

**Sedum green roof**  
Filters fine dust from the air, stores rainwater, provides a cooling microclimate in hot weather and helps to protect species.

**Modern bench**  
FSC-certified bench made of Kambala wood, with height adjustment.

**Prefabricated foundation**  
Custom made for this system for an even faster installation.
