

BICICLEANER

Bicycle Washing Station

The BICICLEANER is a complete bicycle washing station developed with the needs of all types of cyclists in mind.

This washing station is suitable for any type of washing, be it a quick rinse or a more rigorous cleaning. Performs a wash that does not damage bicycle components such as bearings, transmission and suspensions.

It is fully customizable and its front is made up of 2 panels that can be personalized with any design through digital printing, vinyl or painted in the RAL color you desire.

A SMART Version that allows for payment of the washing with an APP is available upon request.
