

TRANSPONDER DEVICES

BENINCA

 **100%**
Made in Italy

- TEO SYSTEM, the new proximity scanning and management system for opening residential and professional automations by means of transponder tags (TEO) or cards (TEO CARD)
- The automation is opened when the TEO transponder approaches the BE.PROXY scanner which, dialoguing with the receiver, gives the command to open the gate, the door, or any controlled device
- The system operate with a frequency of 13.56 MHz, standardised all over the world
- 250 memorisable cards or tags (TEO, TEO CARD)
- Reading distance 2-5 cm
- 2 programmable relay output channels
- Possibility to control one of the two relay outputs with a card, or both outputs with a single or double passage of the card or tag
- Possibility to memorise the cards and tags one by one with the BE.READ, or in remote mode with the BE.PROXY, using a master card
