

Litter Bin

Ref. 20 0569

Street Furniture
Classical Range

Sineu Graff : Intelligent Design
for the town of tomorrow

➤ Presentation

The round litter bin from the Classic range has wooden cladding. These discreet and classical pieces of street furniture will be at home in all your parks and spaces.

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

➤ Description

The bin is made up of a body with wooden slats, upper and lower rails in 4mm thick steel, a 3mm thick spun steel lid, a cylindrical base with a 258mm diameter and a cylindrical bucket in galvanized steel.

After the application of a flow coat, the wood is coated with solvent-free water-based emulsion stain.

The wood used is certified and sourced from well-managed forests.

Steel parts are zinc plated, then they undergo our powder blast process (after cleaning and shot blasting, they are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

The lid of the bin is assembled onto the body by means of a pin on a hinge.

The body of the bin is attached to the base by screws.

Closing is automatic, while opening is done via a triangular key.

3 anchoring points.

Capacity: 58 litres.

Delivered assembled.

Weight: 44kg.
