➤ Presentation

Contemporary litter bins are part of a complete range of street furniture in perforated metal, made entirely of steel. To make it easier to empty, this litter bin has a front door.

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

➤ Description

The bin is made up of a body, a door in perforated 3mm thick painted galvanized steel, a lid in 5mm thick painted galvanized steel and a stainless steel bucket.

Steel parts are zinc plated, then they undergo our powder blast process (after cleaning and shot blasting, they are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

The lid of the bin is assembled on the body with screws, and the door is mounted on hinges.

Closing is automatic, while opening is done via a triangular key.

4 anchoring points.

Capacity: 70 litres.

Delivered assembled.

Weight: 43kg.
