

Racine planter

Ref. 299 578

Street Furniture
Racine Range

Sineu Graff : Intelligent Design
for the town of tomorrow

➤ Presentation

Roots metal planters are suited to the most contemporary settings. This piece of furniture suggests harmony between plants and the planter, thanks to the steel plate with a laser-cut Roots motif.

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

➤ Description

The Roots planter has 4 wooden corner posts with a 100x100mm section, 4 M22 adjustable feet in stainless steel, 4 box supports in 6mm thick painted galvanized steel, 4 cladding panels in 3mm thick painted galvanized steel and a fixed handling planting box.

The cladding panels have a Roots motif made by laser cutting, and are assembled on the posts with stainless steel fasteners.

The planting box is held by the frame and rests directly on the angle irons fixed to each adjustable foot.

After the application of a flow coat, the wood is coated with solvent-free water-based emulsion stain.

The wood used is certified and sourced from well-managed forests.

Steel parts are zinc plated, then they undergo our powder blast process (after cleaning and shot blasting, they are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

This planter is compatible with the Sineu Flor system.

Capacity: 350 litres, including 80-litre reserve.

Weight of planter alone: 104 kg.

Delivered assembled.

➤ Dimensions

➤ Colours

Colours shown:

Wood: Natural shade

Cladding panels: RAL 7005 Mouse grey

Colours to select from RAL (satin) or AKZO NOBEL (sand) charts.
