Street Furniture
Series 3000

Sineu Graff : Intelligent Design
for the town of tomorrow

➤ Presentation

Series 3000 posts have been designed and developed using an eco-conception approach specific to SINEU GRAFF and are characterised by their contemporary design and clarity, and their clean lines. The particularity of this post resides in the contrast between the cap and the remainder of the body, which makes it compliant with the requirements for persons with reduced mobility or with impaired vision.

Series 3000 equipment is intended specifically for dense urban spaces and is simple and efficient. 3000 Series includes 4 barrier models and 3 post models.

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

➤ Description

The post is made up of a 2mm thick square painted galvanized steel tube with a 50x50mm section.

The post has a 3mm thick cast aluminium cap and plate versions have 8mm thick anchoring plates.

Steel parts are zinc plated, then they undergo our powder blast process (after cleaning and shot blasting, they are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

Cast aluminium parts are produced in a foundry located close to our factory in France and are treated using our powder blast process (after cleaning and shot blasting, the parts are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

4 Ø 11mm anchoring points (plate mounted version).
Delivered assembled.

Weight of post alone: 5kg.

➤ Colours

Colour shown:

Cap: RAL 9010 Pure white

Tube: Metallic grey 7100

Colours to select from RAL (satin) or AKZO NOBEL (sand) charts.
