

Barrier

Ref. 41 700X

Street Furniture
Series 7000

Sineu Graff : Intelligent Design
for the town of tomorrow

► Presentation

7000 Series barriers are characterised by their clean and classic looks. The combination of wood and steel give them a warm appearance and allow them to be integrated into all types of environment.

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

► Description

The barrier is made up of wooden vertical uprights with a 110x110mm section, horizontal rails made of 2mm thick oval tubes with a 60x30mm section, vertical bars made of 1.5mm thick round tubes with a 25mm diameter.

The anchoring plates are 8mm thick.

After the application of a flow coat, the wood is coated with solvent-free water-based emulsion stain.

The wood used is certified and sourced from well-managed forests.

Steel parts are zinc plated, then they undergo our powder blast process (after cleaning and shot blasting, they are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

The metal structure is screwed to the wooden posts.

4 anchoring points (plate mounted version).

Delivered assembled.

Weight: 44kg.

► Colours

Colours shown:

Posts: Natural shade

Metal structure: Metallic grey 7100

Colours to select from RAL (satin) or AKZO NOBEL (sand) charts.
