

# Tree Grilles Roots

Ref. 42 25R15 2T

Street Furniture  
Series 2000 Figurative

Sineu Graff : Intelligent Design  
for the town of tomorrow

## ▣ Presentation

A cast-iron grille with a Roots motif that draws on nature.

Our cast-iron grilles have been developed using an eco-conception approach; they have been studied and designed optimally to minimise the use of raw materials and the energy required for manufacturing them.

This piece of street equipment complies with decrees 2006 - 1657 and 2006 - 1658 relating to the accessibility of streets to persons with reduced mobility.

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

## ▣ Description

The series 2000 Roots tree grille is made up of four cast-iron quarter grilles placed on a perimeter frame in 6mm thick painted galvanized steel.

The staking system is made up of a 10.5mm thick cast-iron opening with a 121.5mm diameter that is screwed to a flat iron in 6mm thick painted galvanized steel that is placed under the grille.

Cast-iron parts are produced in a foundry located close to our factory in France and are treated using our powder blast process (after cleaning and shot blasting, the parts are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

Steel parts are zinc plated, then they undergo our powder blast process (after cleaning and shot blasting, they are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

The grille is placed on a perimeter frame. The four quarters are assembled using stainless steel M10 countersunk head screws and plastic washers.

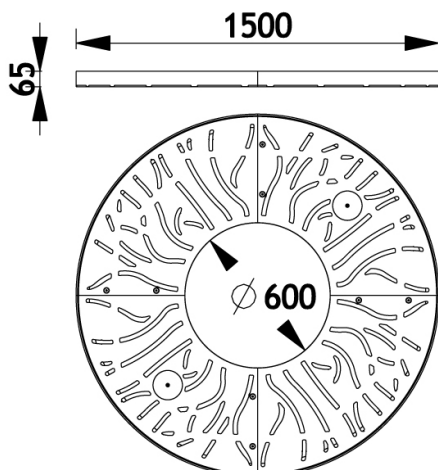

This tree grille is also available with no opening for staking (part no. 40 25R15) or with four openings for staking (part no. 42 25R15 4T).

Number of frame anchoring points: 12 (Ø 14mm holes).

Delivered unassembled.

Weight: 186kg.

## ▣ Dimensions

## ▣ Colours

Colour shown:

Grille and frame: Sand grey 900

Colours to select from RAL (satin) or AKZO NOBEL (sand) charts.
