

Tree Grilles Gaïa

Ref. 42 350C03

Street Furniture
Series 3000 Essential

Sineu Graff : Intelligent Design
for the town of tomorrow

▣ Presentation

Series 3000/Essential steel tree grilles have been studied and designed optimally to minimise the use of raw materials and the energy required for manufacturing them. The Gaia tree grille has been developed using our eco-conception approach.

Nature is a source of inspiration... for this street furniture, in-depth work on new motifs has enabled us to offer you 5 new models of figurative designs for the towns and cities of today.

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

▣ Description

The tree grille is made up of two half grilles and two half frames in 6mm thick painted galvanized S355 steel.

Steel parts are zinc plated, then they undergo our powder blast process (after cleaning and shot blasting, they are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

For compliance with PRM standards, the openings (holes and slots) in this tree grille are less than 20mm wide.

The half grilles are assembled using 6 M12 bolts.

Number of frame anchoring points: 12 (Ø 14mm holes).

Weight: 150kg.

Delivered unassembled.

▣ Dimensions

▣ Colours

Colour shown:

Grille and frame: Sand grey 2500

Colours to select from RAL (satin) or AKZO NOBEL (sand) charts.
