

# Tree Grilles

Ref. 42 4522

Street Furniture  
Series 4500 Classic

Sineu Graff : Intelligent Design  
for the town of tomorrow

## ➤ Presentation

The Series 4500/Classical tree grille offers a more traditional design. This tree grille is made of cast iron, which makes it very strong and gives it a high finish quality. This piece of equipment complies with PRM standards and is accessible to persons with reduced mobility.

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

## ➤ Description

The tree grille is made up of 4 cast-iron quarter grilles, 2 of which have irrigation covers, placed on a perimeter frame in 6mm thick painted galvanized steel.

Cast-iron parts are produced in a foundry located close to our factory in France and are treated using our powder blast process (after cleaning and shot blasting, the parts are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

The 4 quarters of the tree grille are assembled using countersunk head screws and plastic tapered washers.

The tree grille has two irrigation openings.

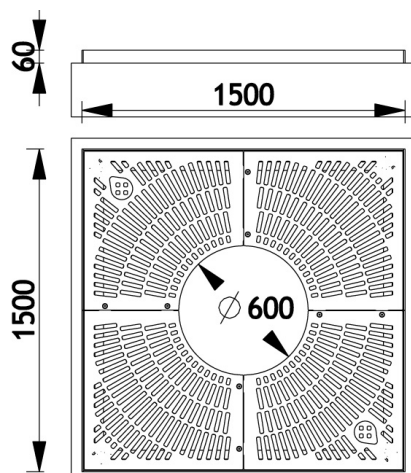

The irrigation cover (which is preassembled on the grille) is in T200 cast iron and turns around its pin; its movement is locked by an M8 lock nut.

Number of frame anchoring points: 12 (Ø 14mm holes).

Delivered unassembled.

Weight of grille and frame: 240kg.

## ➤ Dimensions

## ➤ Colours

Colour shown:

Grille and frame: Sand black 100

Colours to select from RAL (satin) or AKZO NOBEL (sand) charts.
