

Tree Grilles

Ref. 42 4622

Street Furniture
Series 4600 Contemporary

Sineu Graff : Intelligent Design
for the town of tomorrow

➤ Presentation

The Series 4600/Contemporary tree grille offers a more modern design. This tree grille is made of cast iron, which makes it very strong and gives it a high finish quality. This piece of equipment complies with PRM standards and is accessible to persons with reduced mobility.

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

➤ Description

The tree grille is made up of 4 T200 cast-iron quarter grilles placed on a perimeter frame in 6mm thick painted galvanized steel.

Cast-iron parts are produced in a foundry located close to our factory in France and are treated using our powder blast process (after cleaning and shot blasting, the parts are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

The 4 quarter grilles are assembled from above for easier access, thanks to M10 stainless steel countersunk head screws and protective plastic washers.

The tree grille has two irrigation openings.

The irrigation cover (which is preassembled on the grille) is in T200 cast iron and turns around its pin; its movement is locked by an M8 lock nut.

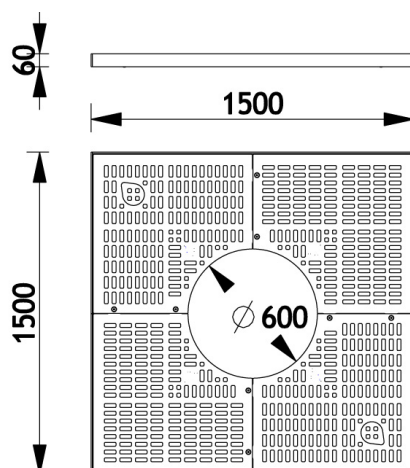

Resistance: 1.5 tonnes.

Number of frame anchoring points: 12 (Ø 14mm holes).

Delivered unassembled.

Weight of grille: 205kg; Weight of grille and frame: 235kg.

➤ Dimensions

➤ Colours

Colour shown:

Grille and frame: Sand black 100

Colours to select from RAL (satin) or AKZO NOBEL (sand) charts.
