

# Tree Guards

Ref. 42 5000

Street Furniture  
Contemporary Serie

Sineu Graff : Intelligent Design  
for the town of tomorrow

## ➤ Presentation

Tree guards support trees and protect them from damage and impacts, and have been designed especially to be harmonious with all urban settings, and can be used with all our series of tree grilles (2000, 3000 and 6000).

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

## ➤ Description

The tree guard is made up of 2 half guards made of straight painted galvanized steel rods with a 8mm diameter and bent rods with a 12mm diameter. The upper diameter of the tree guard is 238mm and the lower diameter is 600mm.

The plates for assembling the 2 half guards and for fastening them to the grille are in 5mm thick painted galvanized steel.

Steel parts are zinc plated, then they undergo our powder blast process (after cleaning and shot blasting, they are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

The 2 half guards are assembled with screws and nuts.

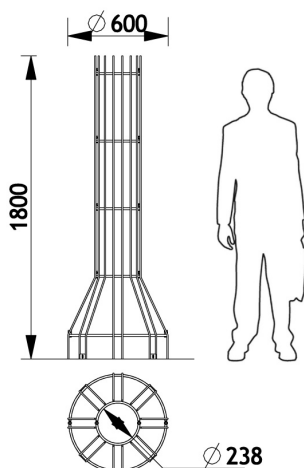

The tree guard is fastened to the grille with screws and nuts.

##RC## 4 fastening points.

Delivered unassembled.

Weight: 19kg.

## ➤ Dimensions

## ➤ Colours
