➤ Presentation

The double seat with backrest is based on the Mobile Gardens concept, for creating friendly settings and new atmospheres. When used in combination with Mobile Gardens, this steel-faced piece of equipment is an innovative solution for temporary or permanent refurbishment.

The equipment that is part of the Mobile Gardens concept includes single or double seats, single or double benches, S-shaped benches and planting benches.

This furniture has been designed and manufactured by Sineu Graff, experts in urban landscaping, in accordance with a sustainable development approach.

➤ Description

The double seat with backrest is made up of two single seats with backrests, each including:

- inner structure in 3mm thick galvanized steel
- seating made of wooden planks
- backrest made of wooden planks and 3mm thick painted galvanized steel facing on the rear
- 3 mm thick painted galvanized steel removable facing
- facing made of wooden planks
- 3mm thick painted galvanized steel plinths
- stainless steel adjustable feet
- connecting systems, each made up of a 6mm thick galvanized steel flange and a galvanized steel pin, 60x30mm, 6 mm thick.

Steel parts are zinc plated, then they undergo our powder blast process (after cleaning and shot blasting, they are coated with a first coat of epoxy powder, and then with a second coat of polyester powder).

After the application of a flow coat, the wood is coated with solvent-free water-based emulsion stain.

The wood used is certified and sourced from well-managed forests.

The plinth of the double seat with backrest is self-adjusting.

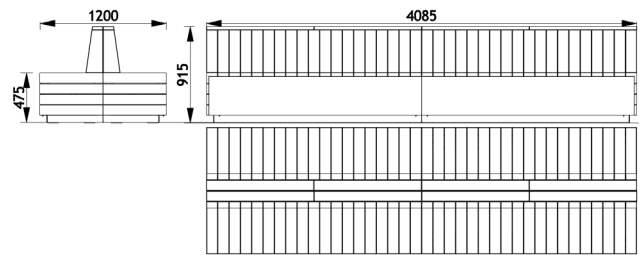

The modules are joined to each other by a flange, with no fasteners.

The planks are fixed with concealed fasteners.

Weight: 840kg.

Delivered pre-assembled.
